Dinoksetiid mk.III (Aileen's Musket Staff) (Unique, Magical, Staff, Attack) This magic staff is built of rosewood and mithral parts in the form of a kwarissian musket, and meant to be wielded as such with a stock and lock action mechanism. Inlaid carvings across its sides depict a silver dragon reading a book. Spells woven and shot through it gain an item bonus on spell attack rolls equal to its potency rune. It is not an actual musket and fires no physical ammunition, but can be chambered with an attack spell wand built to its specs as a 3-action activity; the wand can then be activated through the staff. **Mod:** Iteration on the *Dinoksetiid mk.II*, Aileen's signature PF1e boomstick adapted from *mage's crossbow* into a metamagic-rod-muzzle raygun. Ported over because PF2e's lack of item boni left spell attack scaling behind everything else, and rays were kind of like her main shtick; with PF2e wizard being a lackluster chassis on top of that, I say, no sir, Aileen's got enough crafting feats and narrative achievement to keep her fecking concept viable.

Rhosyndelyn (Aileen's Construction Harp) (Unique, Conjunction) This celtic harp is crafted of maple in the body and spruce in the soundboard, and strung with mithral alloy wire. Once a week, it can cause construction of buildings, mines, tunnels, ditches, etc. for up to 3 hours. The effect produced in 10 minutes of playing is equal to the work of 100 humans laboring for 1 day. **Mod** What built Pegasus Keep in three months. Carried over and reduced from PF1e *Lyre of Building*.

Rhosyngweith (Aileen's Portable Cabin) (Unique, Conjunction) This housing can be folded up into a 3-inch-wide cube of lacquered wood for easy transport. Once per day, the command word "*lonnaigh*" causes this block of wood to unfold in the space of 10 minutes into a 10x15x8 ft.³ shack as per the *Cozy Cabin* spell that lasts for up to 16 hours or until the command word "*plygwch*" is spoken. The shack contains an alchemist's lab, a crafting workbench and anvil, a fireplace, filled bookshelves, an armchair, and a single bunk bed above a writing desk with four vials of ink, two writing quills, and 50 blank sheets of paper that are created anew with each unfolding. The door, shutters, and even chimney are secure against intrusion, the former two being secured with arcane lock and the latter by an iron grate at the top and a narrow flue; they are also protected by an *alarm* spell. **Mod:** Craft and chill.

Rhosyngwisg (Accolade Robe) (Arcane, Focused, Invested) Although not all wizards have gone through formal training, it's become tradition to enchant robes representing the arduous training required and festoon them with honors one has earned. Aileen's

robes are ornamented with clockwork patterns in honour of her doctorate in Clockwork Engineering. Wearing these robes grants a +3 item bonus to Arcana checks. The pockets of the robe tie to an extradimensional space that can hold 1 Bulk of items, none of which can have greater than light Bulk. The items must be related to spellcasting and academics - spellbooks, scrolls, wands, scholarly journals, and other academic supplies the GM allows. These items do not count against your Bulk limit. You can Interact to retrieve or stow items normally. **Mod:** Close enough replacement of the PF1e *otherworldly kimono*, now for storing wands instead of constructs (seeing as the latter didn't quite make it into PF2e).

Accolade Robe ♦ (Arcane, Focused, Invested) **Activate** Review (concentrate, manipulate) **Effect** You retrieve an item of your choice from the robe's storage, then Recall Knowledge. You can activate the robe's Review once per minute as a free action.

Accolade Robe ◇ (Arcane, Focused, Invested) **Activate** Extra Credit (concentrate) **Frequency** once per day; **Effect** You gain 1 Focus Point, which you can spend only to cast a school spell. If you don't spend this Focus Point by the end of this turn, it is lost.

Accompaniment Cloak ♦♦ (Focused, Illusion, Invested, Occult) **Activate** envision, Interact; **Frequency** once per day; **Effect** You peel the musicians from the garment and fling them around you. The cloak casts a 4th-level phantom crowd spell (DC 28); each of the 10-foot squares must be adjacent to you. The crowd looks like the musicians on the garment and continues to accompany your Performance checks. You can Sustain this effect as described in the spell.

Accompaniment Cloak ◇ (Focused, Illusion, Invested, Occult) **Activate** envision; **Frequency** once per day; **Effect** You gain 1 Focus Point, which you can use only to cast a bard composition spell. If not used by the end of your turn, this Focus Point is lost.

Alchemist's Haversack ♦ (Conjuration, Extradimensional, Invested, Magical) **Activate** command; **Frequency** once per day; **Requirements** You gain batches of infused reagents during your daily preparations; **Effect** You pull one additional batch of infused reagents from the satchel's secondary compartment. If you fail to use these reagents by the end of your next turn, they're lost.

Automatic Knowledge (Arcana) ◇ (General, Skill) **Prerequisites** expert in a skill with the Recall Knowledge action; Assurance in that skill **Effect** You know basic facts off the top of your head. Choose a skill you're an

expert in that has the Recall Knowledge action and for which you have the Assurance feat. You can use the Recall Knowledge action with that skill as a free action once per round. If you do, you must use Assurance on the skill check.

Conceal Spell ♦ (Concentrate, Spellshape, Witch) Through sheer mental effort, you can simplify the incantations and gestures needed to spellcast, leaving them barely noticeable. If the next action you use is to Cast a Spell, the spell gains the subtle trait, hiding the shining runes, sparks of magic, and other manifestations that would usually give away your spellcasting. The trait hides only the spell's spellcasting actions and manifestations, not its effects, so an observer might still see a ray streak out from you or see you vanish into thin air.

Circlet of Intellect ♦ (Apex, Invested, Magical) **Activate** Search Your Mind (concentrate) **Frequency** once per hour; **Effect** You gain the effects of hypercognition.

Crown of Witchcraft (greater) ◇ (Focused, Invested, Magical) **Activate** Defiant Hex (concentrate) **Frequency** once per day; **Effect** Gain 1 Focus Point, which you can spend only to cast a witch hex spell. If you don't spend this point by the end of this turn, it is lost.

Cry of Rebellion ♦♦♦ (Auditory, Mythic, Sonic) **Prerequisites** Broken Chain Dedication **Frequency** once per hour **Effect** You let loose a yell of unbridled passion, which fuels your allies, and pounds against your foes. Allies within 60 feet who can hear you gain a +2 status bonus to attack rolls, Perception checks, saving throws, and skill checks for 1 minute. Additionally, foes within 30 feet of you take 16d4 sonic damage (basic Fortitude save against your class DC or spell DC, whichever is higher). This sonic damage increases by 1d4 at 17th level and every level thereafter.

Drain Bonded Item ◇ (Arcane, Wizard) **Frequency** once per day **Requirements** Your bonded item is on your person. **Effect** You expend the magical power stored in your bonded item. During the current turn, you can cast one spell you prepared today and already cast, without spending a spell slot. You must still Cast the Spell and meet the spell's other requirements.

Ears that Hear the Truth (Mythic) You have an acute understanding of the rhythms of living things, and you never miss the quaver that betrays a spoken lie. When you attempt to Sense Motive, or when you roll Perception for initiative, you can spend a Mythic Point to attempt the check or roll at mythic proficiency.

Effortless Concentration ◇ **Trigger** Your turn begins. **Effect** You maintain your active spells with hardly a

thought. You immediately gain the effects of a Sustain action for one of your active wizard spells.

Eyes that See Eternity ♦ (Concentrate, Mythic) Mythic power opens your eyes to the secrets of reality and eternity. Spend a Mythic Point; for the next minute, you gain the effects of truesight and roll all Perception checks with mythic proficiency.

Forcible Energy ♦ (Manipulate, Spellshape) You perform complex manipulations to make the energy from your spells so powerful that your enemies remain vulnerable to it afterward. If your next action is to Cast a Spell that deals acid, cold, electricity, fire, or sonic damage, you can select one target that was damaged to gain weakness 5 to that damage type until the end of your next turn. If a spell deals multiple types of energy damage, choose one that the target gains weakness to. This has no effect on creatures with resistance or immunity to the energy type you choose.

Godspeed ♦ (Mythic) Mythic power grants you speed to rival beasts and demigods. Spend a Mythic Point; for the next minute, you gain a +10-foot status bonus to all your Speeds and are quickened. You can use the extra action each round to Stride, Step, or Leap.

Heroic Presence ♦ (Emotion, Human, Mental) **Frequency** once per day **Effect** The blood of heroes courses through your veins, and you inspire your allies to dig deep and find a new level of resolve. You grant up to 10 willing creatures within 30 feet the effects of a 6th-rank zealous conviction, though the effect automatically ends on a target if you give that target a command they would normally find repugnant. This action has the auditory trait or visual trait, depending on how you inspire your allies.

Jug of Fond Remembrance ♦ (Conjuration, Magical) **Activate** Interact; **Frequency** once per hour; **Effect** You take a long sip from the jug and then Recall Knowledge about a creature you can see, with a +2 circumstance bonus to the check. If you fail but don't critically fail this check, you get a success instead. You're then stupefied 1 for 3 rounds.

Messenger's Ring (greater) ♦♦ (Invested, Magical) **Activate** Sending (concentrate) **Frequency** once per hour; **Effect** The ring casts sending to your specifications.

Mythic Refocus ♦ (Mythic) **Prerequisites** You have a focus pool. **Effect** As your ability to control your mythic power grows, you learn to channel it to restore and reinforce other forms of power at your command. Spend a Mythic Point; you immediately recover all your Focus Points, filling your focus pool to its current maximum.

Nonlethal Spell ♦ (Manipulate, Spellshape) You can alter offensive spells to be less deadly. If your next action is to Cast a Spell that deals damage and doesn't have the death or void trait, that spell gains the nonlethal trait.

Obsidian Goggles (greater) ♦ (Invested, Magical) **Activate** Darkvision (manipulate) **Effect** Adjusting your goggles, you gain darkvision until you deactivate it as an Interact action or the item is no longer invested by you, whichever comes first.

Prescience ◇ (Mythic, Prediction) **Trigger** You're about to roll initiative. Mythic power floods through your mind, filling you with visions of possible futures, events that might or might not happen, and warnings of things that might be. Spend a Mythic Point and roll your initiative check using mythic proficiency. Until the end of your first turn, you have a +1 status bonus to AC and all saves.

Reach Spell ♦ (Concentrate, Spellshape) You can extend the range of your spells. If the next action you use is to Cast a Spell that has a range, increase that spell's range by 30 feet. As is standard for increasing spell ranges, if the spell normally has a range of touch, you extend its range to 30 feet.

Retrieval Belt (major) ♦ (Uncommon, Extradimensional, Invested, Magical) **Activate** Store Item (manipulate) **Requirements** There is room for an item in the belt; **Effect** One item you're holding with a Bulk of 1 or less vanishes into the belt's extradimensional space.

Retrieval Belt (major) ◇ (Uncommon, Extradimensional, Invested, Magical) **Activate** Retrieve Item (manipulate) **Requirements** An item is stored in the belt and you have a free hand; **Effect** The item stored in the belt appears in your hand. Neither Store Item nor Retrieve Item can be activated again for 1 minute. The belt can store up to 10 items at a time.

Rewrite Fate ◇ (Uncommon, Fortune, Mythic) **Trigger** You roll a skill check or saving throw and don't like the result. **Effect** Destiny, fate, or some other force bends around you as your mythic power swells, manifesting in a flash of light or visible surge of energy emanating from your body as you cast aside the chains of fate. You expend a Mythic Point and reroll the check or save with mythic proficiency, taking the new result.

Shadow Signet ◇ (Invested, Magical) **Activate** (concentrate, spellshape) **Effect** If your next action is to Cast a Spell that requires a spell attack roll against Armor Class, choose Fortitude DC or Reflex DC. You make your spell attack roll against that defense instead of AC. If the spell has multiple targets, the choice of DC applies to all of them.

Shift Spell ♦ Access Faction requirement **Requirements** You have an active spell that affects an area and you are within the spell's range. **Effect** You move the spell's area to a new location within 120 feet. The spell's remaining duration is reduced by half. The spell no longer affects its previous area.
