You center yourself and call to mind the Vudrani monastic ideals of mindfulness and self-knowledge. You fail the save against the emotion effect instead of critically failing.**Terrain Shield** **Prerequisites** Geomancer Dedication, master in Nature **Frequency** once per 10 minutes **Trigger** A Strike would damage you **Requirements** You gained a terrain attunement benefit since the start of your most recent turn and that attunement matches the terrain you're in. You're so attuned to the land that it rises up to protect you from a potentially fatal blow in a seeming coincidence. For instance, a branch suddenly falls from a nearby tree to take the brunt of a sword swing or a surprising change of current disrupts an enemy's attack. You gain resistance to physical damage equal to double your level against the triggering Strike.**Shield Block** **Trigger** While you have your shield raised, you would take damage from a physical attack. You snap your shield in place to ward off a blow. Your shield prevents you from taking an amount of damage up to the shield's Hardness. You and the shield each take any remaining damage, possibly breaking or destroying the shield.**Fungal Armor** **Activate** or 1 action envision; **Frequency** once per day; **Trigger** You are hit by a melee, ranged, or spell attack; **Effect** The attack misses you, dealing no damage as you transform into a cloud of spores. You gain the benefits of a *gaseous form* spell for 1 minute. For the duration, a cloud of deadly spores surrounds you. Each breathing creature that begins its turn within 10 feet of you takes 6d8 poison damage (DC 35 basic Fortitude save). You can Dismiss the cloud form.**Headband of Inspired Wisdom** **Activate** envision (fortune); **Frequency** once per hour; **Trigger** You fail a saving throw against an effect that makes you confused, fascinated, or stupefied; **Effect** The *headband of inspired wisdom* clears your mind. You can reroll the saving throw and use the better result.**Speed** 25 feet**Melee** +3 Striking (Greater) Staff +29 (Two-Hand d8, Magical), **Damage** 3d4+4 B**Overwhelming Energy** (Manipulate, Metamagic) You alter your spells to overcome resistances. If the next action you use is to Cast a Spell, the spell ignores an amount of the target's resistance to acid, cold, electricity, fire, or sonic damage equal to your level. This applies to all damage the spell deals, including persistent damage and damage caused by an ongoing effect of the spell, such as the wall created by *wall of fire*. A creature's immunities are unaffected.**Quickened Attunement** (Concentrate, Metamagic) **Prerequisites** Geomancer Dedication, legendary in Nature **Frequency** once per day **Requirements** Your previous action was Attunement Shift. If your next action is to cast a

spell that would grant your terrain attunement bonus, reduce the number of actions to cast it by 1 (to a minimum of 1 action). **Special** You can't use Quickened Attunement and Quickened Casting in the same round.

Shifting Terrain **Prerequisites** Rough Terrain Stance, master in Nature **Requirements** Your terrain attunement matches the terrain you're in and you're in Rough Terrain Stance. You slam your fist into the ground or twirl your arms about to cause the terrain around you to shift and ripple, potentially throwing others off balance. Each creature within your area of difficult terrain from Rough Terrain Stance must attempt a Reflex saving throw against your spell DC with the following effects. After you use this action, you can't use it again for 1d4 rounds.

Critical Success The creature is unaffected. **Success** The creature is clumsy 1 for 1 round. **Failure** The creature is clumsy 2 for 1 round. **Critical Failure** The creature is clumsy 2 for 1 round and falls prone.

Rough Terrain Stance (Stance) **Prerequisites** Geomancer Dedication, expert in Nature **Requirements** You gained a terrain attunement benefit this turn. You need to meet this requirement only to enter the stance, not to remain in it. You enter a stance that makes it difficult to move around you. Each square adjacent to you becomes difficult terrain that matches the terrain attunement you gained (rime forms in an arctic terrain, momentary undergrowth shoots up in a forest terrain, and so on). You ignore this difficult terrain. This stance ends if you move into a different type of terrain.

Attunement Shift **Prerequisites** Geomancer Dedication Frequency once per 10 minutes **Requirements** Your previous action was to cast a spell with the air, cold, earth, fire, plant, or water trait. The magic of your spell floods into you, overriding your connection to the land around you. You alter your terrain attunement to a terrain that matches a trait of the spell you just cast. You thereby gain your terrain attunement benefit when you cast further spells with the same descriptor, instead of using the terrain you're actually in. For instance, if you cast tanglefoot, your terrain attunement switches to your choice of forest or swamp, and your terrain attunement applies when you cast another plant spell. Your terrain attunement reverts to that of the terrain you're in 1 minute after you use Attunement Shift.

Draw From The Land **Prerequisites** Geomancer Dedication, expert in Nature **Requirements** You gained a terrain attunement benefit this turn, and it matched the terrain you're in. You pull strength from the surrounding terrain. You gain temporary Hit Points equal to your level. They last for 1 round. If you previously gained the plains terrain attunement effect this turn, combine the temporary Hit Points together.

Legendary Negotiation (General, Skill) **Prerequisites** legendary in Diplomacy You can negotiate incredibly quickly in adverse situations. You attempt to Make an Impression and then Request your opponent cease their current activity and engage in negotiations. You take a –5 penalty to your Diplomacy check. The GM sets the DC of the Request based on the circumstances—it's generally at least a very hard DC of the creature's level. Some creatures might simply refuse, and even those who agree to parley might ultimately find your arguments lacking and return to violence.

Primeval Mistletoe (Greater) (Primal, Transmutation) **Activate** Interact; **Frequency** once per 10 minutes; **Effect** You squeeze juice from one of the berries and smear it onto a club or staff to cast **Activate** Interact; **Frequency** once per day; **Effect** You can twine the sprig around the wrist of one hand and touch a tree to cast *tree shape* upon yourself, except instead of a becoming a tree, you become a vine on the touched tree.

Primeval Mistletoe (Greater) (Primal, Transmutation) **Activate** Interact; **Frequency** once per day; **Effect** You plant the *primeval mistletoe into an area of natural earth or stone. Once planted, the plant immediately sprouts into an area of holly bushes that don't impede movement and that pulse with positive energy, replicating the effects of a field of life spell. This lasts for up to 1 minute, as long as you continue to Sustain the Activation. When this magic ends, the holly bushes revert back into the original primeval mistletoe.*

Tilil Mask (Greater) (Uncommon, Invested, Magical, Transmutation) **Activate** envision; **Frequency** once per day; **Effect** Your vision up to 60 feet sees through small amounts of living plant matter as though it were transparent. While this effect is active, creatures can't be concealed from you due to living plants, such as small trees, vines, and grass. This vision also prevents them from Hiding or Sneaking past you using only living plants for

concealment or cover. Other than the inability to use the cover to Hide or Sneak, this ability doesn't prevent plants from providing cover to creatures or blocking line of effect. It also doesn't allow you to see through dead plant matter, such as the wooden walls of a building, or thick plant matter, such as the walls of a dungeon built entirely inside an enormous living tree. The effect lasts for 10 minutes.

Headband of Inspired Wisdom (Abjuration, Apex, Invested, Magical) **Activate** envision (fortune); **Frequency** once per hour; **Trigger** You fail a saving throw against an effect that makes you confused, fascinated, or stupefied; **Effect** The headband of inspired wisdom clears your mind. You can reroll the saving throw and use the better result.

Eye of the Unseen (Greater) (Divination, Invested, Magical) **Activate** command, envision; **Frequency** once per day; **Effect** You focus on the eye to see the unseen. The eye casts 5th level see invisibility on you.

Celestial Peach (Life) (Rare, Consumable, Divine, Healing, Magical, Necromancy, Positive) **Activate** Interact Among Hao Jin's most precious treasures are three living plants, the last surviving celestial peach trees taken from the mountains of Chu Ye. One of the trees grows pearls in place of flowers, but the other two bear fruit that is far more valuable. Eating one of these small red peaches can heal even the most grievous of injuries.
