Recognize Spell ➤ **Prerequisites** trained in Arcana, Nature, Occultism, or Religion **Trigger** A creature within line of sight casts a spell that you don't have prepared or in your spell repertoire, or a trap or similar object casts such a spell. You must be aware of the casting. If you are trained in the appropriate skill for the spell's tradition and it's a common spell of 2nd rank or lower, you automatically identify it (you still roll to attempt to get a critical success, but can't get a worse result than success). The highest rank of spell you automatically identify increases to 4 if you're an expert, 6 if you're a master, and 10 if you're legendary. The GM rolls a secret Arcana, Nature, Occultism, or Religion check, whichever corresponds to the tradition of the spell being cast. If you're not trained in the skill, you can't get a result better than failure. **Critical Success** You correctly recognize the spell and gain a +1 circumstance bonus to your saving throw or your AC against it. **Success** You correctly recognize the spell. **Failure** You fail to recognize the spell. **Critical Failure** You misidentify the spell as another spell entirely, of the GM's choice.

Broken Tusk Pendant (Greater) ➤ **Activate** Interact; **Frequency** once per hour; **Trigger** An animal targets you with a melee attack, and you can see the animal; **Effect** You gain a +1 item bonus to AC against the triggering attack, or a +2 item bonus if the animal is the specific kind depicted by the pendant.

Speed 30 feet**Melee** Sickle +29 (Agile, Finesse, Trip), **Damage** 1d4+2 S**Melee** +3 Striking (Greater) Frost Staff +27 (Monk, Two-Hand d8, Cold, Magical), **Damage** 3d4+2 B +1d6 Cold

Familiar's Eyes ◆ (Concentrate, Divination, Witch) **Prerequisites** a familiar You use your familiar's senses as easily as your own. You project your senses into your familiar. When you do, you lose all sensory information from your own body, but you can sense through your familiar's body until you Dismiss the effect. While projecting your senses in this way, you can converse telepathically with your familiar if it understands a language. **Special** This feat has the trait corresponding to the tradition of spells you cast (arcane, divine, occult, or primal).

Effortless Concentration ◆ (Witch) **Trigger** Your turn begins. You maintain your active spells with hardly a thought. You immediately gain the effects of a Sustain action for one of your active witch spells.

Familiar Conduit ◆ (Concentrate, Spellshape) **Prerequisites** Familiar Master Dedication, able to cast spells **Requirements** You have line of effect to your familiar. Under your tutelage, your familiar has grown attuned to the hidden currents of the world and can serve as a conduit for your magic. If the next action you use is to Cast a Spell that has a range, the spell uses the familiar as its origin point.

Elf Step ◆ (Elf) You move in a graceful dance, and even your steps are broad. You Step 5 feet twice.

Diadem of Intellect ◆ (Apex, Divination, Invested, Magical) **Activate** envision; **Frequency** once per hour; **Effect** You gain the effects of *hypercognition*.

Arctic Vigor (Greater) ◆◆ (Uncommon, Cold, Evocation, Invested, Magical, Tattoo) **Activate** command; **Frequency** once per day; **Effect** You call forth a blast of polar wind in a 10-foot burst within a range of 60 feet that

deals 12d6 cold damage. All creatures in the area must attempt a DC 27 basic Fortitude save.

Dragonscale Amulet  (Rare, Enchantment, Invested, Magical) **Activate** command; **Frequency** once per day; **Effect** You exude an aura that terrifies all foes in a 60-foot radius, as the frightful presence ability with a DC 34 Will save.

Winged Boots  (Invested, Magical, Transmutation) **Activate** command, Interact; **Frequency** once per day; **Effect** You speak a command word and click the boots' heels together to cause the wings to animate and flap rapidly, granting you a fly Speed of 30 feet for 10 minutes.

Ice Forge  (Rare, Conjunction, Magical, Structure) **Activate** command, Interact; **Effect** You toss the *ice forge* onto the ground, and it immediately expands in size, transforming into a fully functional forge that appears to be made of solid ice. Expanded, the *ice forge* is 10 feet square and 10 feet high. While the forge itself is cold to the touch, it won't melt in higher temperatures, nor will it cause harm to someone who remains in contact with the chill surface for an extended period of time. The forge can be used to work metal as a normal forge (although fuel must be provided) - the heat created by its use does no harm to the *ice forge*, nor does it transmit to the surface it sits upon, making an *ice forge* an ideal solution for those who seek to use forges in areas where open flames or smoke would be dangerous. You can return an *ice forge* to its handheld anvil form by spending a single action to issue a verbal command, which has the auditory trait. Doing so immediately snuffs out any fire within the forge and leaves behind unused material or ashes. Once deactivated, the forge can't be activated again for 4 hours.

Boreal Staff (Major)  (Magical, Staff) **Activate** concentrate; **Frequency** once per 10 minutes; **Effect** Attempt a Strike using the staff. That Strike deals 2d4 additional cold damage.
